Any GEMX Member would be permitted to avail itself of this arrangement, provided that its order routing functionality incorporates the features described above and satisfies GEMX that it appears to be robust and reliable. The Member remains solely responsible for implementing and operating its System.

MARS Eligible Contracts

MARS Payment would be made to GEMX Members that have System Eligibility and have routed the requisite number of Eligible Contracts daily in a month, which were executed on GEMX. For the purpose of qualifying for the MARS Payment, Eligible Contracts include the following: Non-Nasdaq GEMX Market Maker (FARMM), Firm Proprietary/Broker-Dealer and Professional Customer Orders that are executed. Section 6. Connectivity Fees

A. Access Fees

Market Maker

Primary Market Maker - $200 per month per membership.

Competitive Market Maker - $100 per month per membership.

B. CMM Trading Right Fees

$850 per month for first trading right.

C. Ports and Other Services

The below charges are assessed by GEMX for connectivity to GEMX.

A port is a logical connection or session that enables a market participant to send inbound messages and/or receive outbound messages from the Exchange using various communication protocols. Fees are prorated for the first month of service under this section. Upon cancellation, market participants are required to pay for service for the remainder of the month, regardless of whether it is the first month of service.

(i) The following order and quote protocols are available on GEMX.

(1) FIX Port Fee[1]	$650 per port, per month, per account number
(2) SQF Port Fee	per port, per month as follows: A Market Maker may not subscribe to more than 250 SQF Ports per month.
(3) SQF Purge Port Fee	per port, per month as follows:

The SQF Port Fee and the SQF Purge Port Fee are aggregated for the below incremental tiers as follows:

Number of Ports	**Monthly Fee Per Port**
First 5 ports (1-5)	$1,620 per port
Next 15 ports (6-20)	$1,080 per port
All ports over 20 ports (21 and above)	$540 per port

SQF Port and SQF Purge Fees will be discounted, on a monthly basis, by the percentage discount in the below table provided a market participant has transacted the requisite amount of Total National Volume in the prior month. The percentage of Total National Volume is calculated by taking the total Market Maker Penny Symbol and Market Maker Non-Penny Symbol volume (excluding index options) executed on the Exchange in the prior month and attributing a multiple of five times to that Non-Penny Symbol volume (numerator) and dividing that by Market Maker volume ("M" capacity at The Options Clearing Corporation ("OCC")) in multiply listed options across all options exchanges (denominator or Total National Volume).

Tier	**Percentage of Total National Volume**	**Percentage SQF Port and SQF Purge Port Discount**
1	less than 0.10%	0%
2	greater than or equal to 0.10% and less than 0.25%	10%
3	greater than or equal to 0.25% and less than 0.40%	30%
4	greater than or equal to 0.40%	50%

For example, a Market Maker that executed 3,000,000 in Penny Volume and 200,000 in Non-Penny Volume in a given month on the Exchange, where the Total National Volume was 1,000,000,000, would qualify for a discount of 50% on their SQF Port and SQF Purge Port fees ((200,000 x 5= 1,000,000) + 3,000,000 = 4,000,000 which is 0.40% of 1,000,000,000).

(4) OTTO Port Fee[1]	$650 per port, per month, per account number

(ii) The following order and execution information is available to Members.

(1) CTI Port Fee[1]	$650 per port, per month, per account number
