1. Reserved.

2. Fees apply to the originating and contra order.

3. Non-Priority Customer orders will be charged a taker fee of $1.25 per contract for trades executed against a Priority Customer. Priority Customer orders will be charged a taker fee of $1.00 per contract for trades executed against a Priority Customer.

4. Rebate provided for contracts that are submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order except when those contracts trade against pre-existing orders and quotes on the Exchange's order books. The applicable Fee for Responses to Crossing Orders is applied to any contracts for which a rebate is provided.

5. Market Makers that qualify for Market Maker Plus will not pay this fee if they meet the applicable tier thresholds set forth in the table below, and will instead be assessed the below fees or rebates based on the applicable tier for which they qualify.

Market Makers are evaluated each trading day for the percentage of time spent on the National Best Bid or National Best Offer ("NBBO") for qualifying series that expire in two successive thirty calendar day periods beginning on that trading day. A Market Maker Plus is a Market Maker who is on the NBBO a specified percentage of the time on average for the month based on daily performance in the qualifying series for each of the two successive periods described above. Qualifying series are series trading between $0.03 and $3.00 (for options whose underlying stock's previous trading day's last sale price was less than or equal to $100) and between $0.10 and $3.00 (for options whose underlying stock's previous trading day's last sale price was greater than $100) in premium. If a Market Maker would qualify for a different Market Maker Plus tier in each of the two successive periods described above, then the lower of the two Market Maker Plus tier fees or rebates shall apply to all contracts.

Market Makers may enter quotes in a symbol using one or more unique, exchange assigned identifiers - i.e., badge/suffix combinations. Market Maker Plus status is calculated independently based on quotes entered in a symbol for each of the Market Maker's badge/suffix combinations, and the highest tier achieved for any badge/suffix combination quoting that symbol applies to executions across all badge/suffix combinations that the member uses to trade in that symbol. Only badge/suffix combinations quoting a minimum of ten trading days within the month will be used to determine whether the Market Maker Plus status has been met and the specific tier to be applied to the Market Maker's performance for that month.

A Market Maker's worst quoting day each month for each of the two successive periods described above, on a per symbol basis, will be excluded in calculating whether a Market Maker qualifies for this fee or rebate. A Market Maker who qualifies for Market Maker Plus Tier 2 or higher in at least four of the previous six months will be eligible to receive a reduced Tier 2 incentive in a given month where the Market Maker does not qualify for Market Maker Plus Tier 2 or higher. For Select Symbols, this rebate will be the applicable Tier 2 rebate reduced by $0.08 per contract. For Non-Select Symbols, this fee will be the Tier 2 fee increased by $0.08 per contract. For the avoidance of doubt, if a Market Maker has achieved Tier 2 or higher in at least four of the previous six months, but does not achieve Tier 2 or higher in the current month, that Market Maker will receive the better of the reduced Tier 2 incentive or any applicable Tier 1 incentive the Market Maker qualified for in the current month.

The Exchange may exclude from any member's monthly Market Maker Plus tier calculation any Unanticipated Event; provided that the Exchange will only remove the day for members that would have a lower time at the NBBO for the specified series with the day included.

Tier 2 (90% to less than 98%)	$0.30
Tier 3 (98% or greater)	($0.40)[6]

6. This rebate will be provided if the qualifying Market Maker trades against non-Priority Customer orders. Qualifying Market

Makers that trade against Priority Customer orders will be charged a Market Maker Plus Tier 3 fee of $0.10 per contract instead of receiving the Tier 3 rebate.

7. For all executions in regular NDX and XND orders, the applicable index options fees in Section 5 will apply.

8. This fee applies to Market Maker orders sent to the Exchange by Electronic Access Members.

9. The following symbols are linked for purposes of the linked maker rebate: (1) SPY and QQQ, and (2) SPY and IWM. Market Makers that qualify for Market Maker Plus Tiers 2-4 in note 5 above for executions in SPY, QQQ, or IWM may be eligible for a linked maker rebate in a linked symbol in addition to the regular maker rebate for the applicable tier. Linked maker rebate applies to executions in SPY, QQQ, or IWM if the Market Maker does not achieve the applicable tier in that symbol but achieves the tier (i.e., any of Market Maker Plus Tiers 2-4) for any badge/suffix combination in the other linked symbol, in which case the higher tier achieved applies to both symbols. If a Market Maker would qualify for a linked maker rebate in SPY based on the tier achieved in QQQ and the tier achieved in IWM then the higher of the two linked maker rebates will be applied to SPY. The regular maker rebate will be provided in the symbol that qualifies the Market Maker for the higher tier based on percentage of time at the NBBO.

10. There will be no fee charged or rebate provided when trading against non-Priority Customer Complex Orders that leg into the regular order book.

11. $0.25 per contract fee applies instead of the applicable fee or rebate when trading against Priority Customer Complex Orders that leg into the regular order book. Notwithstanding the foregoing, Market Makers that qualify for Market Maker Plus in Select Symbols will not pay any fee nor receive any rebate in the symbols for which they qualify for Market Maker Plus when trading against Priority Customer Complex Orders that leg into the regular order book.

12. Market Makers that achieve Priority Customer Complex Tiers 7 - 9 in Section 4 will receive an additional $0.01 per contract rebate on executions in SPY, QQQ, or IWM that qualify for the linked maker rebate program pursuant to note 9 above, in addition to the linked maker rebate tiers 2 - 4.

13. Other than for Priority Customer orders, this fee is $0.05 per contract for orders executed by Members that execute an ADV of 7,500 or more contracts in the PIM in a given month. Members that execute an ADV of 12,500 or more contracts in the PIM will be charged $0.02 per contract. The discounted fees are applied retroactively to all eligible PIM volume in that month once the threshold has been reached.

14. Market Makers that qualify for Market Maker Plus Tiers 1-3 in note 5 above for executions in two out of the three symbols AMZN, META, or NVDA will be eligible for a maker rebate in the third symbol, in addition to the maker rebate for the applicable tier in the other two symbols. The maker rebate will apply to executions in AMZN, META, or NVDA if the Market Maker does not achieve the applicable tier in that symbol but achieves the tier (i.e., any of Market Maker Plus Tiers 1-3) for any badge/suffix combination in the other two symbols. If a Market Maker would qualify for different Market Maker Plus Tiers 1-3 in two symbols, then the lower of the two maker rebates will be applied to the third symbol (e.g., Market Maker Plus qualification in Tier 1 and Tier 2 across two symbols would earn Market Maker Plus Tier 1 in the third symbol). If all three symbols separately achieve any of Market Maker Plus Tiers 1-3, the symbol that achieves the tier with the lowest maker rebate will instead receive the same maker rebate as the symbol that achieved the next lowest tier.

15. Members that execute more than 0.25% of Regular Order Non-Select Symbol Priority Customer Volume (excluding Crossing Orders and Responses to Crossing Orders) calculated as a percentage of Customer Total Consolidated Volume per day in a given month will receive an additional rebate of $0.18 per contract. Members that meet the foregoing volume requirement will also be eligible to receive the Section 4 Priority Customer Complex Order rebates in Select Symbols and Non-Select Symbols that apply to one tier higher than the tier for which they currently qualify, except Members that already qualify for the highest Priority Customer Complex Tier in Section 4 will instead receive an additional rebate of $0.01 per contract in Select Symbols and Non-Select Symbols.

16. Fees for Crossing Orders applicable to Professional Customers for an order submitted as a Qualified Contingent Cross order and orders executed in the Exchange's Solicited Order Mechanism will be $0.00 per contract.

17. Reserved.

18. There will be no fee charged or rebate provided in Non-Select Symbols when trading against Priority Customer Complex Orders that leg into the regular order book.

19. Electronic Access Members that utilize PIM to execute more than 0.75% of Priority Customer volume of Regular Orders, calculated as a percentage of Customer Total Consolidated Volume ("TCV") per day in a given month, will receive a PIM Break-Up Rebate of $0.26 per contract in Select Symbols and $0.60 per contract in Non-Select Symbols for Priority Customer Regular Orders under 250 contracts that are submitted to PIM and do not trade with their contra order except when those contracts trade against unrelated quotes or orders.

Section 6. Other Options Fees and Rebates

A. Solicitation Rebate

» Members using the Qualified Contingent Cross (QCC) and/or other solicited orders executed in the Solicited Order Mechanism or Facilitation Mechanism will receive rebates for solicited orders executed in the Solicited Order or Facilitation Mechanisms ("Solicited Orders") according to the table below for each originating contract side in all symbols traded on the Exchange. Volume associated with QCC executions will be aggregated in calculating the Solicitation Rebate volume tiers in this section, but Members that execute QCC volume will receive the QCC Rebate in Section 6.B below.

Once a Member reaches a certain volume threshold in combined QCC and Solicited Orders during a month, the Exchange will provide rebates to that Member for all of its Solicited Order traded contracts for that month. All eligible volume from affiliated Members will be aggregated in determining the combined QCC and Solicited Order volume totals, provided there is at least 75% common ownership between the Members as reflected on each Member's Form BD, Schedule A. The applicable rebates will be applied on Solicited Order traded contracts once the volume threshold is met. Members will receive the rebate for all Solicited Orders when at least one side of the Solicited Order is neither a Priority Customer nor Professional Customers. Solicited Orders between two Priority Customers, two Professional Customers, or a Priority Customer and a Professional Customer will not receive any rebate. The volume threshold and corresponding rebates are as follows:

» Volume resulting from all QCC and Solicited Orders will be aggregated in determining the applicable volume tier.

Originating Contract Sides	**Rebate**
0 to 749,999	($0.10)[&]
750,000 to 1,499,999	($0.11)[&]
1,500,000+	($0.12)[*&]

* Members will receive an additional rebate of $0.01 per originating contract side on Solicited Orders that qualify for the Solicitation Rebate program if they achieve in a given month: (i) combined QCC and Solicited Order volume of more than 1,750,000 originating contract sides and (ii) Priority Customer Complex Tier 6 or higher in Section 4.

[&] Members will receive an additional rebate of $0.01 per originating contract side on Solicited Orders that qualify for the Solicitation Rebate program if they achieve Priority Customer Complex Tier 2 or higher in a given month.

B. QCC Rebate

Members that submit QCC orders when at least one side of the QCC transaction is neither a Priority Customer nor Professional Customer will receive the below QCC Rebates. QCC Rebates will be paid to each originating contract side ("QCC Agency Side") in all symbols traded on the Exchange.

QCC Rebate 1

When only one side of the QCC transaction is neither a Priority Customer nor Professional Customer, the Member will receive a $0.15 per contract rebate for each QCC Agency Side.

Members will receive an additional rebate of $0.01 per contract for each QCC Agency Side that qualifies for QCC Rebate 1 if they achieve Priority Customer Complex Tier 2 or higher in a given month.

QCC Rebate 2

When both sides of the QCC transaction are not any combination of Priority Customers and/or Professional Customers, the Member will receive a $0.23 per contract rebate for each QCC Agency Side.

Members will receive an additional rebate of $0.04 per contract for each QCC Agency Side that qualifies for QCC Rebate 2 if they achieve Priority Customer Complex Tier 2 or higher in a given month.

C. PIM and Facilitation Rebate

» Electronic Access Members that utilize PIM to execute more than 0.75% of Priority Customer volume in Regular Orders, calculated as a percentage of Customer Total Consolidated Volume (“TCV”) per day in a given month, will receive a $0.105 per contract rebate for Priority Customer Regular Orders under 250 contracts that are submitted to PIM. The rebate would be paid to the Agency Order as that term is defined within Options 3, Section 13. Eligible volume from Affiliated Members will be aggregated in calculating the percentage. Provided this rebate is higher than other rebates within Options 7, Section 6C, this rebate will be paid in lieu of other rebates within this Section C. In the event a Crossing Transaction consists of two Priority Customer Orders, the Exchange would not pay this rebate.

» Members using the Facilitation Mechanism or PIM for unsolicited Crossing Orders, whereby the contra-side party of the Crossing Order (1) is either Firm Proprietary or Broker-Dealer and (2) has total affiliated Average Daily Volume ("ADV") of 250,000 or more contracts, are eligible to earn the following rebates during a given month. In determining total affiliated ADV, eligible volume from Affiliated Members will be aggregated.

Originating Contract Sides	Rebate
0 to 199,999	($0.02)
200,000 or more	($0.03)*

*Once a Member reaches or exceeds the volume threshold to qualify for a $0.03 per originating contract side rebate during a given month, then the Member will receive the $0.03 rebate for all of its originating contract sides that qualify for the PIM and Facilitation Rebate during that month, including for the Member's first qualifying 0-199,999 originating contract sides.

Members that qualify for the PIM and Facilitation rebates on their unsolicited Crossing Orders, as set forth in the above paragraph, may also earn either or both of the following additional rebates:

1. Members that achieve combined Qualified Contingent Cross ("QCC") and Solicitation Originating Contracts Sides of more than 1,000,000 during a given month can earn an additional rebate of ($0.01) per originating contract side on their unsolicited Crossing Orders that qualify for the PIM and Facilitation Rebate program.

2. Members that achieve Priority Customer Complex Order ADV of between 100,000-224,999 contracts can earn an additional rebate of ($0.01) per originating contract side on all of their unsolicited Crossing Orders that qualify for the PIM and Facilitation Rebate program; however, this additional rebate will be ($0.02) per originating contract on all unsolicited Crossing Orders that qualify for the PIM and Facilitation Rebate Program to the extent that Members achieve Priority Customer Complex Order ADV of 225,000 or more contracts. For avoidance of doubt, if a Member has 200,000 originating contract sides in a month that qualify for a $0.03 rebate under the PIM and Facilitation Rebate program and the Member also achieves Priority Customer Complex Order ADV of 225,000 contracts in that same month, then the Member will receive an additional $0.02 rebate on all of its 200,000 originating contract sides that qualify for the PIM and Facilitation Rebate program, for a total rebate on such originating contract sides of $0.05.

C. Ports and Other Services

The below charges are assessed by ISE for connectivity to ISE.

A port is a logical connection or session that enables a market participant to send inbound messages and/or receive outbound messages from the Exchange using various communication protocols. Fees are prorated for the first month of service under this section. Upon cancellation, market participants are required to pay for service for the remainder of the month, regardless of whether it is the first month of service.

(i) The following order and quote protocols are available on ISE.

(1) FIX Port Fee $300 per port per month, per mnemonic

(2) SQF Port Fee $1,185 per port per month

SQF Port Fees will be discounted, on a monthly basis, by the percentage discount in the below table provided a market participant has transacted the requisite amount of Total National Volume in the prior month. The percentage of Total National Volume is calculated by taking the total Market Maker Penny Symbol and Market Maker Non-Penny Symbol volume (excluding index options) executed on the Exchange in the prior month and attributing a multiple of five times to that Non-Penny Symbol volume (numerator) and dividing that by Market Maker volume ("M" capacity at The Options Clearing Corporation ("OCC")) in multiply listed options across all options exchanges (denominator or Total National Volume).

Tier	Percentage of Total National Volume	Percentage SQF Port Discount
1	less than 0.10%	0%
2	greater than or equal to 0.10% and less than 0.25%	10%
3	greater than or equal to 0.25% and less than 0.40%	30%
4	greater than or equal to 0.40%	50%

For example, a Market Maker that executed 3,000,000 in Penny Volume and 200,000 in Non-Penny Volume in a given month on the Exchange, where the Total National Volume was 1,000,000,000, would qualify for a discount of 50% on their SQF Port fees ((200,000 x 5= 1,000,000) + 3,000,000 = 4,000,000 which is 0.40% of 1,000,000,000).

A Market Maker may not subscribe to more than 250 SQF Ports per month.

(3) SQF Purge Port Fee $1,185 per port per month

(4) OTTO Port Fee[1] $400 per port per month, per mnemonic

[1] OTTO Port Fees are subject to a monthly cap of $4,000.

(ii) The following order and execution information is available to Members.

(1) CTI Port Fee	$500 per port per month, per account number
(2) FIX DROP Port Fee	$500 per port per month, per account number

(iii) The following data port fees apply in connection with data subscriptions pursuant to ISE Rules at Section 10. These ports are available to non-ISE Members and ISE Members.
