

OPTIONS 7 PRICING SCHEDULE

Section 1 General Provisions

NTX Options Participants may be subject to the Charges for Membership, Services and Equipment in the Equity 7 Rules, General 8, Sections 1–2, as well as the fees in this Options 7.

(a) Definitions. For purposes of assessing fees and paying rebates, the following references should serve as guidance.

The term **"Broker-Dealer"** or ("B") applies to any transaction which is not subject to any of the other transaction fees applicable within a particular category.

The term **"NTX Options Market Maker"** or ("M") is a Participant that has registered as a Market Maker on NTX Options pursuant to Options 2, Section 1, and must also remain in good standing pursuant to Options 2, Section 9. In order to receive Market Maker pricing in all securities, the Participant must be registered as a NTX Options Market Maker in at least one security.

The term **"Common Ownership"** shall mean Participants under 75% common ownership or control. Common Ownership shall apply to all pricing in Options 7, Section 2 for which a volume threshold or volume percentage is required to obtain the pricing.

The term **"Customer"** or ("C") applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of broker or dealer or for the account of a "Professional" (as that term is defined in Options 1, Section 1(a)(48)).

"Customer Total Consolidated Volume" means the total national volume cleared at The Options Clearing Corporation in the Customer range in equity and ETF options in that month.

The term **"Firm"** or ("F") applies to any transaction that is identified by a Participant for clearing in the Firm range at OCC.

The term **"Joint Back Office"** or "JBO" applies to any transaction that is identified by a Participant for clearing in the Firm range at OCC and is identified with an origin code as a JBO. A JBO will be priced the same as a Broker-Dealer as of September 1, 2014. A JBO participant is a Participant that maintains a JBO arrangement with a clearing broker-dealer ("JBO Broker") subject to the requirements of Regulation T Section 220.7 of the Federal Reserve System as further discussed in Options 6D, Section 4.

The term **"Lead Market Maker"** or ("LMM") applies to a registered NTX Options Market Maker that is approved pursuant to Options 2, Section 3 to be the LMM in an options class (options classes).

The term **"Non-NTX Options Market Maker"** or ("O") is a registered market maker on another options exchange that is not a NTX Options Market Maker. A Non-NTX Options Market Maker must append the proper Non-NTX Options Market Maker designation to orders routed to NTX Options.

The term **"Non-Customer"** shall include a Professional, Broker-Dealer and Non-NTX Options Market Maker.

The term **"Professional"** or ("P") means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Options 1, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants.

(b) For Purposes of Common Ownership Aggregation of Activity of Affiliated Members and Member Organizations

(1) For purposes of applying any options transaction fee or rebate where the fee assessed, or rebate provided by NTX depends upon the volume of an Options Participant's activity, an Options Participant may request that NTX aggregate its activity with the activity of its affiliates.

(A) An Options Participant requesting aggregation of affiliate activity shall be required to certify to NTX the affiliate status of entities whose activity it seeks to aggregate prior to receiving approval for aggregation, and shall be required to inform NTX immediately of any event that causes an entity to cease to be an affiliate. NTX shall review available information regarding the entities, and reserves the right to request additional information to verify the affiliate status of an entity. NTX shall approve a request unless it determines that the certification is not accurate.

(B) If two or more Options Participants become affiliated on or prior to the sixteenth day of a month, and submit the required request for aggregation on or prior to the twenty-second day of the month, an approval of the request by NTX shall be deemed to be effective as of the first day of that month. If two or more Options Participants become affiliated after the sixteenth day of a month, or submit a request for aggregation after the twenty-second day of the month, an approval of the request by NTX shall be deemed to be effective as of the first day of the next calendar month.

(2) For purposes of applying any options transaction fee or rebate where the fee assessed, or rebate provided, by NTX depends upon the

volume of an Options Participant's activity, references to an entity (including references to a "Options Participant") shall be deemed to include the entity and its affiliates that have been approved for aggregation.

(3) For purposes of options pricing, the term "affiliate" of an Options Participant shall mean any Options Participant under 75% common ownership or control of that Options Participant.

The term "**Appointed MM**" is a NTX Options Market Maker who has been appointed by an Order Flow Provider ("OFP") for purposes of qualifying as an Affiliated Entity. An OFP is a Participant that submits orders, as agent or principal, to the Exchange.

The term "**Appointed OFP**" is an OFP who has been appointed by a NTX Options Market Maker for purposes of qualifying as an Affiliated Entity.

The term "**Affiliated Entity**" is a relationship between an Appointed MM and an Appointed OFP for purposes of aggregating eligible volume for pricing in Options 7, Section 2(1) for which a volume threshold or volume percentage is required to qualify for higher rebates or lower fees. NTX Options Market Makers and OFPs are required to send an email to the Exchange to appoint their counterpart, at least 3 business days prior to the last day of the month to qualify for the next month. The Exchange will acknowledge receipt of the emails and specify the date the Affiliated Entity is eligible for applicable pricing in Options 7, Section 2(1). Each Affiliated Entity relationship will commence on the 1st of a month and may not be terminated prior to the end of any month. An Affiliated Entity relationship will automatically renew each month until or unless either party terminates earlier in writing by sending an email to the Exchange at least 3 business days prior to the last day of the month to terminate for the next month. Participants under Common Ownership may not qualify as a counterparty comprising an Affiliated Entity. Each Participant may qualify for only one (1) Affiliated Entity relationship at any given time.

(c) With respect to Options 7, Sections 2(1) and (2) the order that is received by the trading system first in time shall be considered an order adding liquidity and an order that trades against that order shall be considered an order removing liquidity.

(d) For purposes of determining equity tier calculations under this section, any day that the market is not open for the entire trading day will be excluded from such calculation.

(a) Removal of Days for Purposes of Pricing Tiers:

(i) **(A)** Any day that the Exchange announces in advance that it will not be open for trading will be excluded from the options tier calculations set forth in its Pricing Schedule; and **(B)** any day with a scheduled early market close ("Scheduled Early Close") may be excluded from the options tier calculations only pursuant to paragraph (iii) below.

(ii) The Exchange may exclude the following days ("Unanticipated Events") from the options tier calculations only pursuant to paragraph (iii) below, specifically any day that: **(A)** the market is not open for the entire trading day, **(B)** the Exchange instructs Participants in writing to route their orders to other markets, **(C)** the Exchange is inaccessible to Participants during the 30-minute period before the opening of trade due to an Exchange system disruption, or **(D)** the Exchange's system experiences a disruption that lasts for more than 60 minutes during regular trading hours.

(iii) If a day is to be excluded as a result of paragraph (i)(B) or (ii) above, the Exchange will exclude the day from any Participant's monthly options tier calculations as follows:

(A) the Exchange may exclude from the ADV calculation any Scheduled Early Close or Unanticipated Event; and

(B) the Exchange may exclude from any other applicable options tier calculation provided for in its Pricing Schedule (together with (ii)(A), "Tier Calculations") any Scheduled Early Close or Unanticipated Event.

provided, in each case, that the Exchange will only remove the day for Participants that would have a lower Tier Calculation with the day included.

(e) Collection of Exchange Fees and Other Claims-NTX Options

Each NTX Options Participant, and all applicants for registration, shall be required to provide a clearing account number for an account at the National Securities Clearing Corporation ("NSCC") for purposes of permitting the Exchange to debit any undisputed or final fees, fines, charges and/or other monetary sanctions or other monies due and owing to the Exchange or other charges related to General 2, Section 2. If a member disputes an invoice, the Exchange will not include the disputed amount in the debit if the member has disputed the amount in writing to the Exchange's designated staff by the 15th of the month, or the following business day if the 15th is not a business day, and the amount in dispute is at least \$10,000 or greater.

Section 3 NTX Options Market - Ports and other Services

Changes to this rule have been approved, but not implemented. For more information, see the [attached document \(SR-BX-2024-048\)](#).

The below charges are assessed by NTX for connectivity to the NTX Options Market.

A port is a logical connection or session that enables a market participant to send inbound messages and/or receive outbound messages from the Exchange using various communication protocols. Fees are prorated for the first month of service under this section. Upon cancellation, participants are required to pay for service for the remainder of the month, regardless of whether it is the first month of service.

An account number shall mean a number assigned to a Participant. Participants may have more than one account number.

(i) The following order and quote protocols are available on NTX:

(1) FIX Port Fee¹	\$650 per port, per month, per account number
(2) SQF Port Fee	per port, per month as follows: A Market Maker may not subscribe to more than 250 SQF Ports per month.
(3) SQF Purge Port Fee	per port, per month as follows:

The SQF Port Fee and the SQF Purge Port Fee are aggregated for the below incremental tiers as follows:

Number of Ports	Monthly Fee Per Port
First 5 ports (1-5)	\$1,620 per port
Next 15 ports (6-20)	\$1,080 per port

All ports over 20 ports (21 and above)

\$540 per port

SQF Port and SQF Purge Fees will be discounted, on a monthly basis, by the percentage discount in the below table provided a market participant has transacted the requisite amount of Total National Volume in the prior month. The percentage of Total National Volume is calculated by taking the total Market Maker Penny Symbol and Market Maker Non-Penny Symbol volume (excluding index options) executed on the Exchange in the prior month and attributing a multiple of five times to that Non-Penny Symbol volume (numerator) and dividing that by Market Maker volume ("M" capacity at The Options Clearing Corporation ("OCC")) in multiply listed options across all options exchanges (denominator or Total National Volume).

Tier	Percentage of Total National Volume	Percentage SQF Port and SQF Purge Port Discount
1	less than 0.10%	0%
2	greater than or equal to 0.10% and less than 0.25%	10%
3	greater than or equal to 0.25% and less than 0.40%	30%
4	greater than or equal to 0.40%	50%

For example, a Market Maker that executed 3,000,000 in Penny Volume and 200,000 in Non-Penny Volume in a given month on the Exchange, where the Total National Volume was 1,000,000,000, would qualify for a discount of 50% on their SQF Port and SQF Purge Port fees $((200,000 \times 5 = 1,000,000) + 3,000,000 = 4,000,000$ which is 0.40% of 1,000,000,000).

(ii) The following order and execution information is available to Participants.

(1) CTI Port Fee¹ \$650 per port, per month

(2) FIX DROP Port Fee¹ \$650 per port, per month

(iii) The following data ports fees apply in connection with data subscriptions pursuant to NTX Rules at Options 7, Section 4. The below port fees do not apply if the subscription is delivered via multicast. These ports are available to non-NTX Participants and NTX Participants.

(1) NTX Depth Port Fee¹ \$650 per port, per month

(2) NTX TOP Port Fee¹ \$650 per port, per month

¹The maximum monthly fees in the aggregate for FIX Port, CTI Port, FIX DROP Port, NTX Depth Port and NTX TOP Port Fees will be \$7,500.

(iv) Other ports:

Disaster Recovery Port Fee for ports in subsections (i) - (iii) \$0 per port, per month

Nasdaq Testing Facility Port Fee¹ \$0 per port, per month

¹The Nasdaq Testing Facility Port Fee is applicable to all ports within this Section 3.

(v) Access and Redistribution Fee

(1) Definitions: For purposes of this Section:

(A) The term "Equipment Configuration" shall mean any line, circuit, router package, or other technical configuration used to provide a connection to the Exchange market data feeds.

(B) The term "Extranet Provider" shall mean any entity that has signed the Exchange Extranet Connection Agreement and that establishes a telecommunications connection in the Exchange's co-location facility.

(C) The term "Distributor" shall have the meaning set forth in Equity 7, Section 119(b).

(2) Extranet Providers that establish a connection with the Exchange to offer direct access connectivity to market data feeds shall be assessed a monthly access and redistribution fee of \$1,000 per Equipment Configuration. If an Extranet Provider uses multiple Equipment Configurations to provide Exchange market data feeds to recipients, the access and redistribution fee shall apply to each such Equipment Configuration. Extranet Providers that use the same Equipment Configuration for the receipt of equities and options Exchange market data feeds will be assessed a single fee for that Equipment Configuration.

(3) Distributors (other than Extranet Providers) that utilize a Direct Circuit Connection to the Exchange pursuant to General 8, Section 2 to receive Exchange market data feeds shall be assessed a monthly access and redistribution fee of \$1,000 per Direct Circuit Connection. If a Distributor (other than an Extranet Provider) uses multiple Direct Circuit Connections to receive Exchange market data feeds, the monthly fee shall apply to each. Distributors that use the same Direct Circuit Connection for the receipt of equities and options Exchange market data feeds will be assessed a single fee for that Direct Circuit Connection.
